

Commissions 101

A little guide to commissions. What to expect when you sign up to work with me!

I want the end piece to be perfect so it's hard to give an exact time frame. The overall process takes about a month (add a couple weeks if you are having the piece framed).

THE PROCESS

1.

DISCOVERY

1-2 weeks before the 'start' of the commission.

Here is where I ask you to share with me pieces you are drawn to. Any subject matter/ ideas you want the piece to capture. Colour palettes you love and hate ect.

If you know orientation - amazing, if not no worries I can create ideas landscape, square and portrait!

2.

IDEATION

I will take everything away and come up with some ideas.

These will be shared with you and I ask for your feedback. We will keep tweaking until you are in- love!

3.

THE DETAILS

At this point we lock in the size and the framing options (more on that in slide 4).

4.

PAINTING

The part that is the most fun!! We get the painting onto canvas!!

Once it is done, I will varnish it, wrap it and have it shipped to your chosen address.

FRAMING OPTIONS

Framing Colours

If you have chosen to have the piece framed. I use Southern Buoy who create pre-framed blank canvas'. This means we choose the frame before it's painted!

Once we have an idea locked in I will send options for mock-ups with their available colours. Their options can be found [here](#)

Examples of mock-ups on the right.

HOW TO BOOK

How to book

I usually book for a 1/2 months in advance. I ask for a \$50 deposit to lock in the spot.

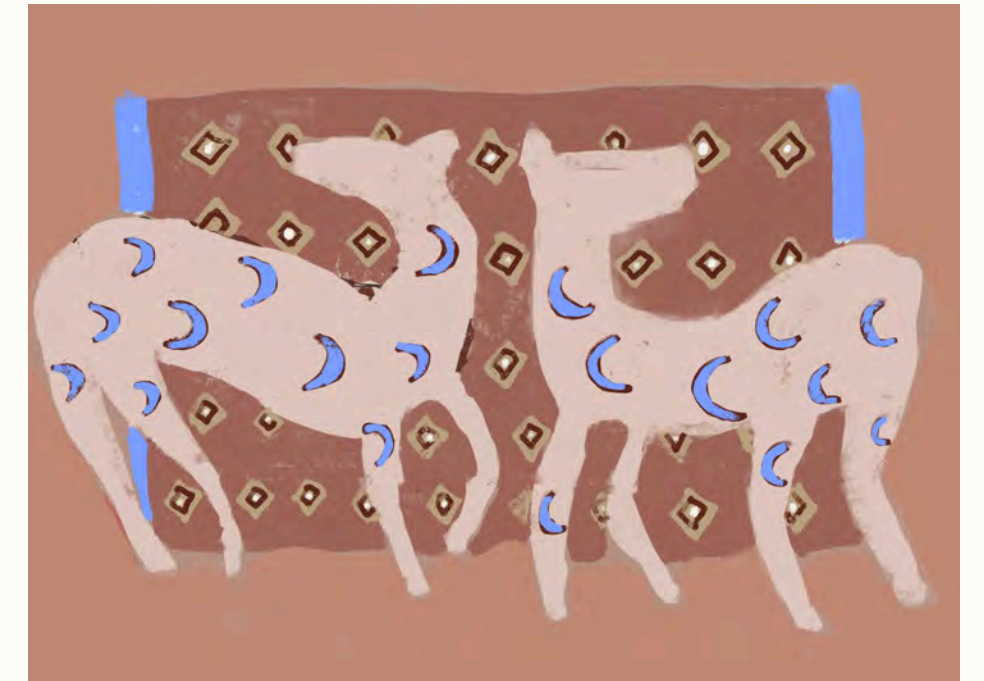

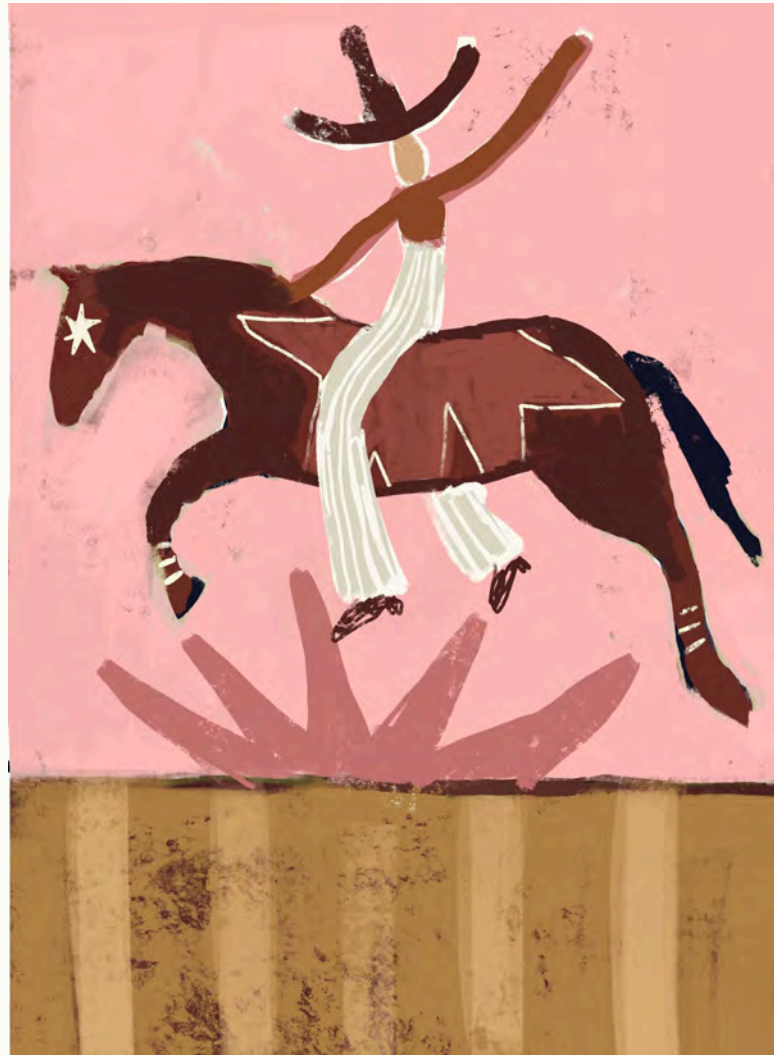

Send me an email or give me a call to get started!! I will send you a link to the deposit and then you can expect an email from me a couple weeks before the month you are booked in for!

If you have a tight deadline - we will make it work don't worry!
